

# About our Company :

- Administration
- Marketing
- Department of Research & Development

# Our Products :

- **Solar Dryers**
- **Solar Evaporators**
- **Solar Street Lights & Power Systems.**

(with and without Back-Up Facility  
Suitable for all seasons)

**OUR SOLAR DRYERS will Dry  
not only the agricultural and  
Industrial Products. This can be  
used to Dry E.T.P Solide waste -  
SOLAR SLEDGE DRYERS.**

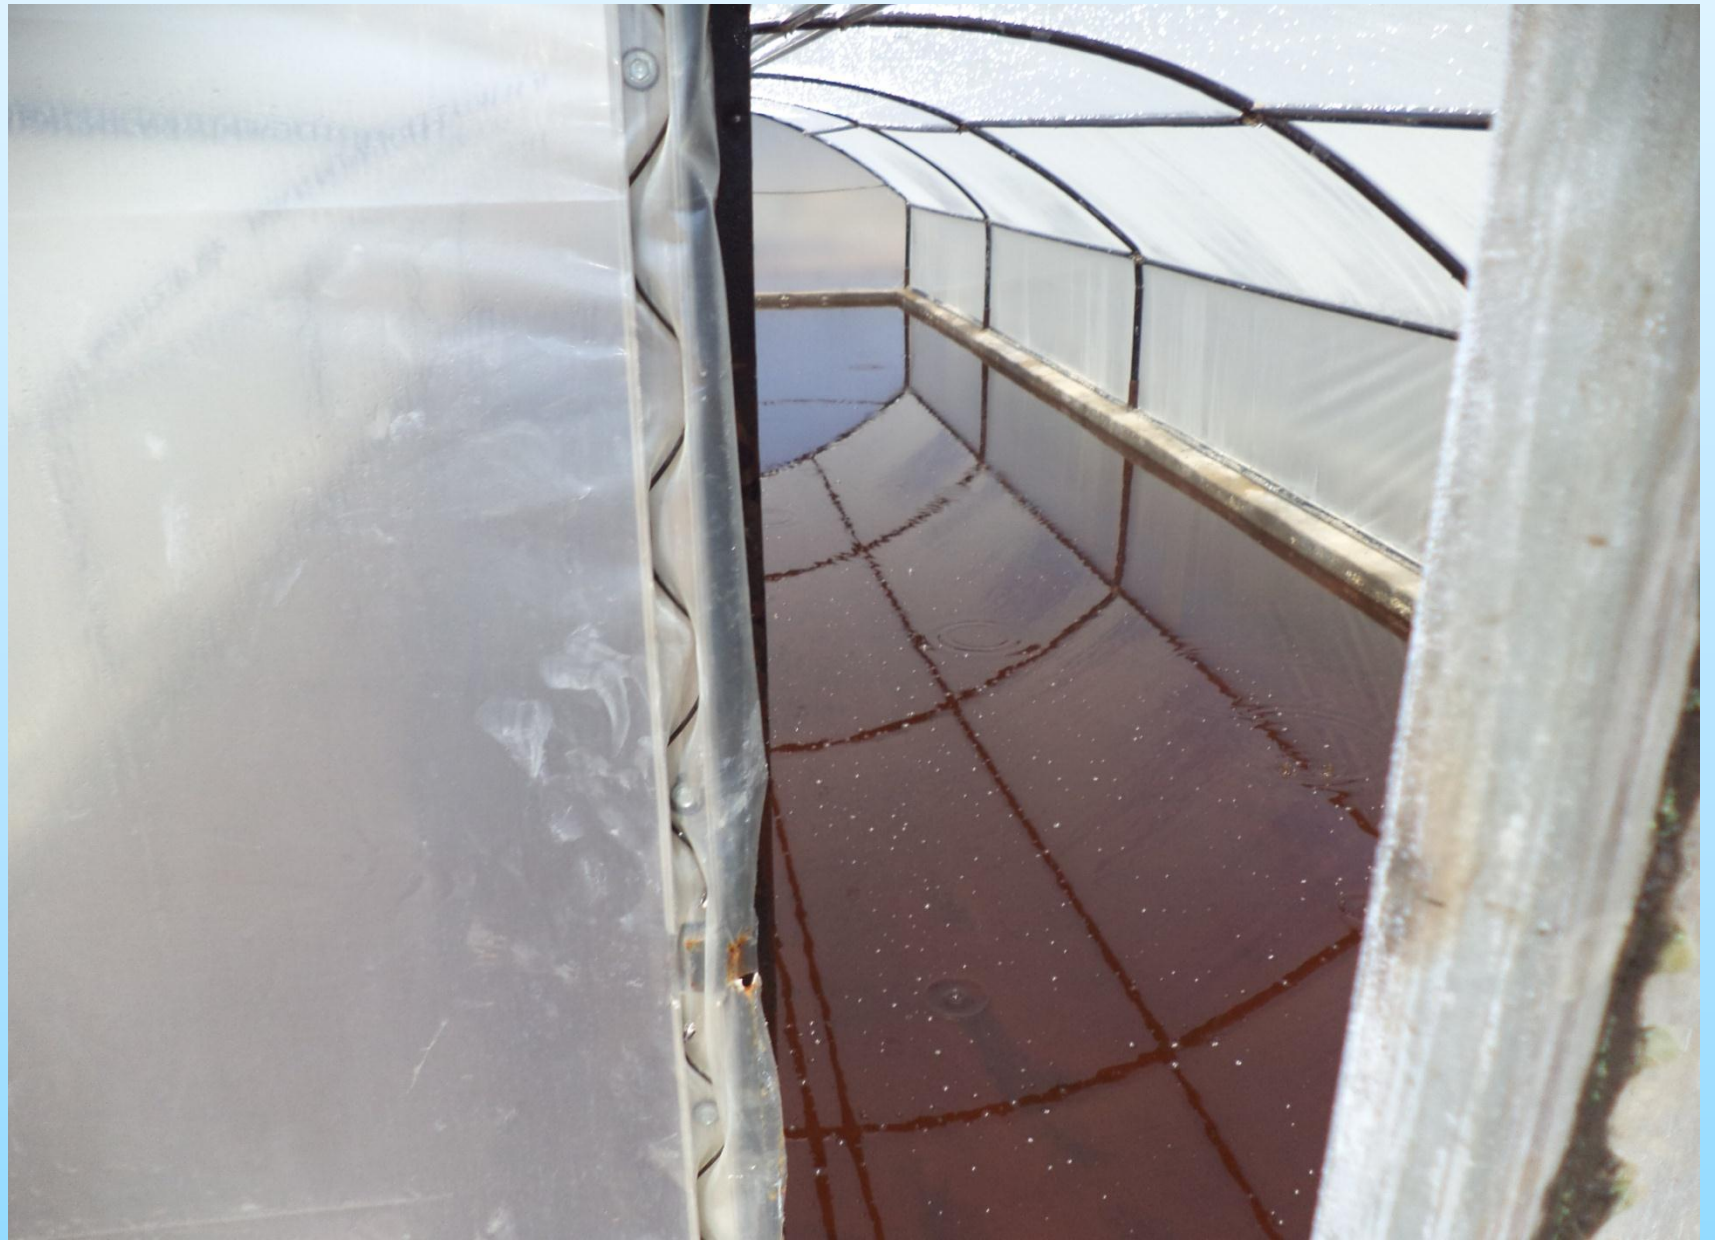

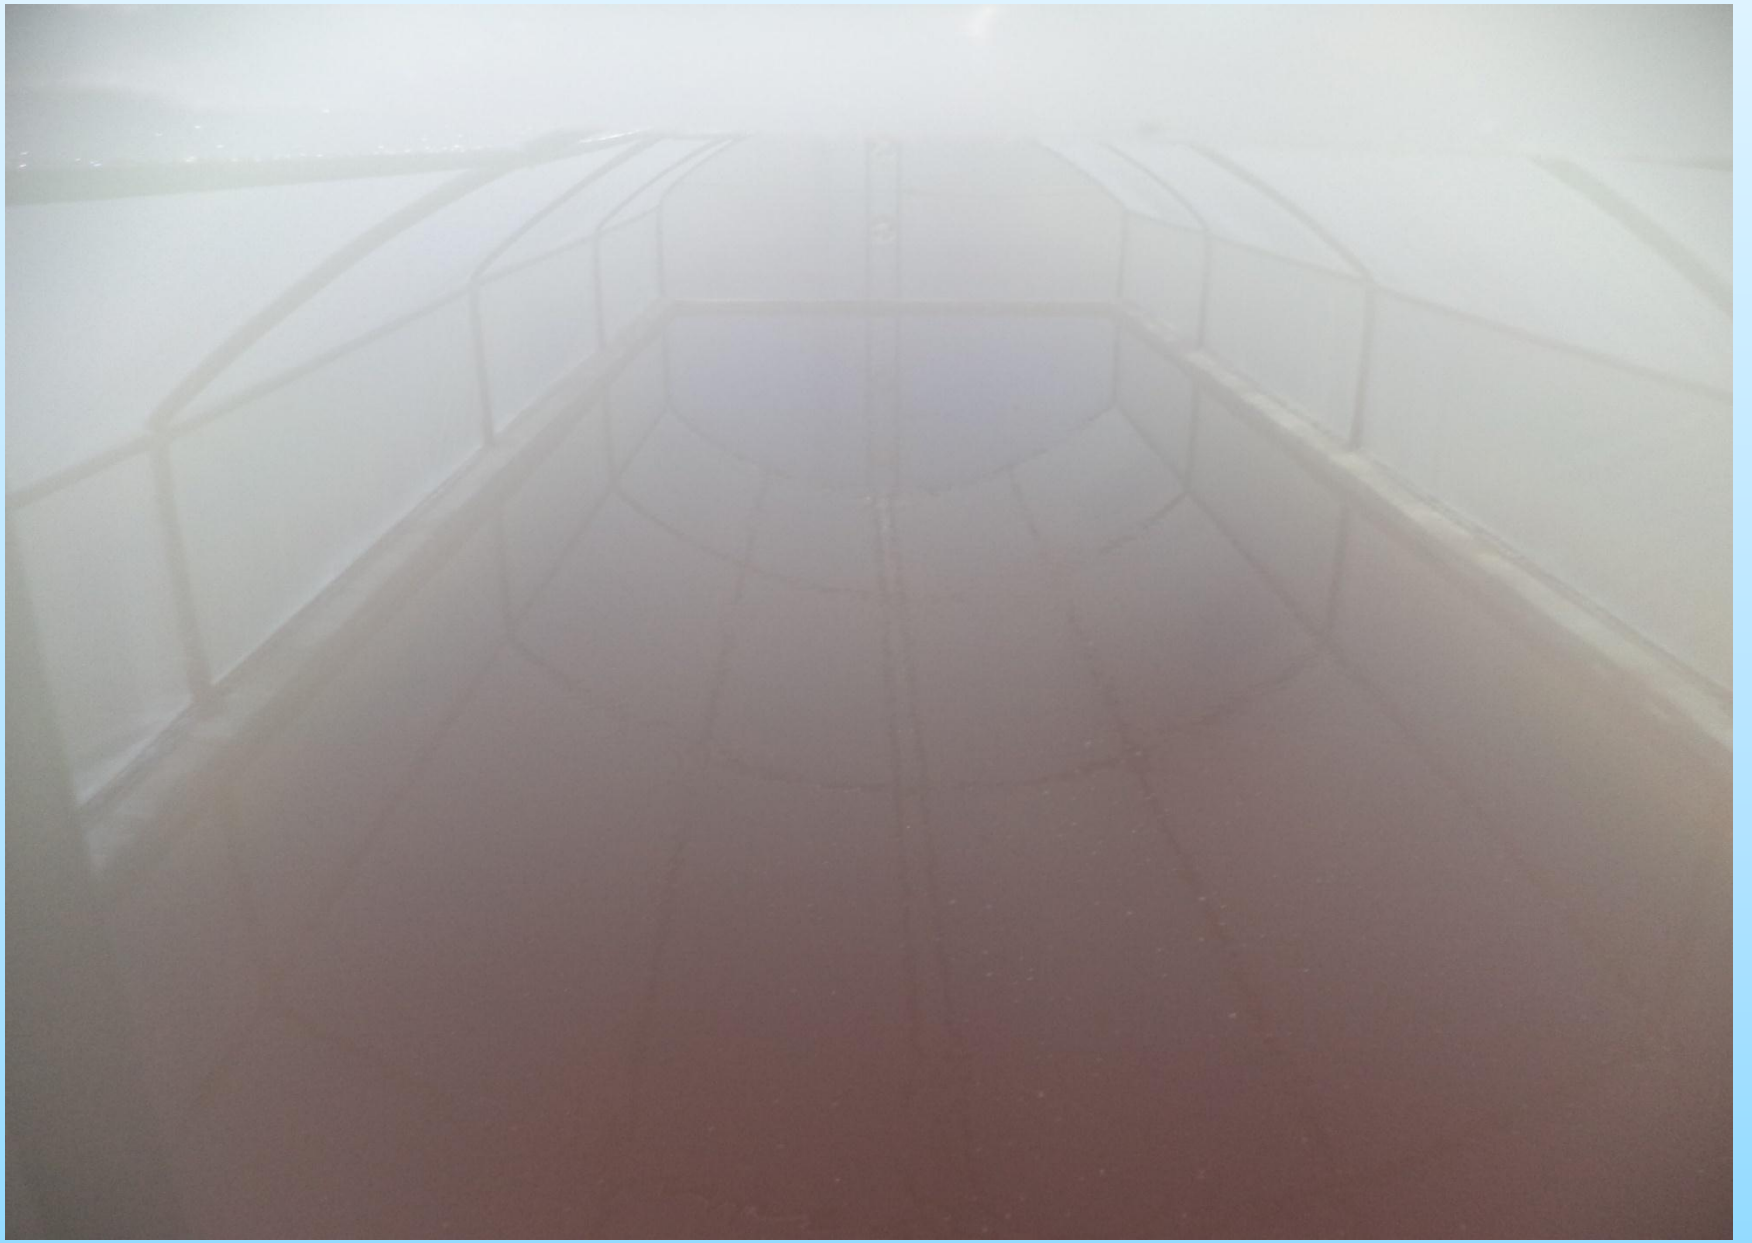

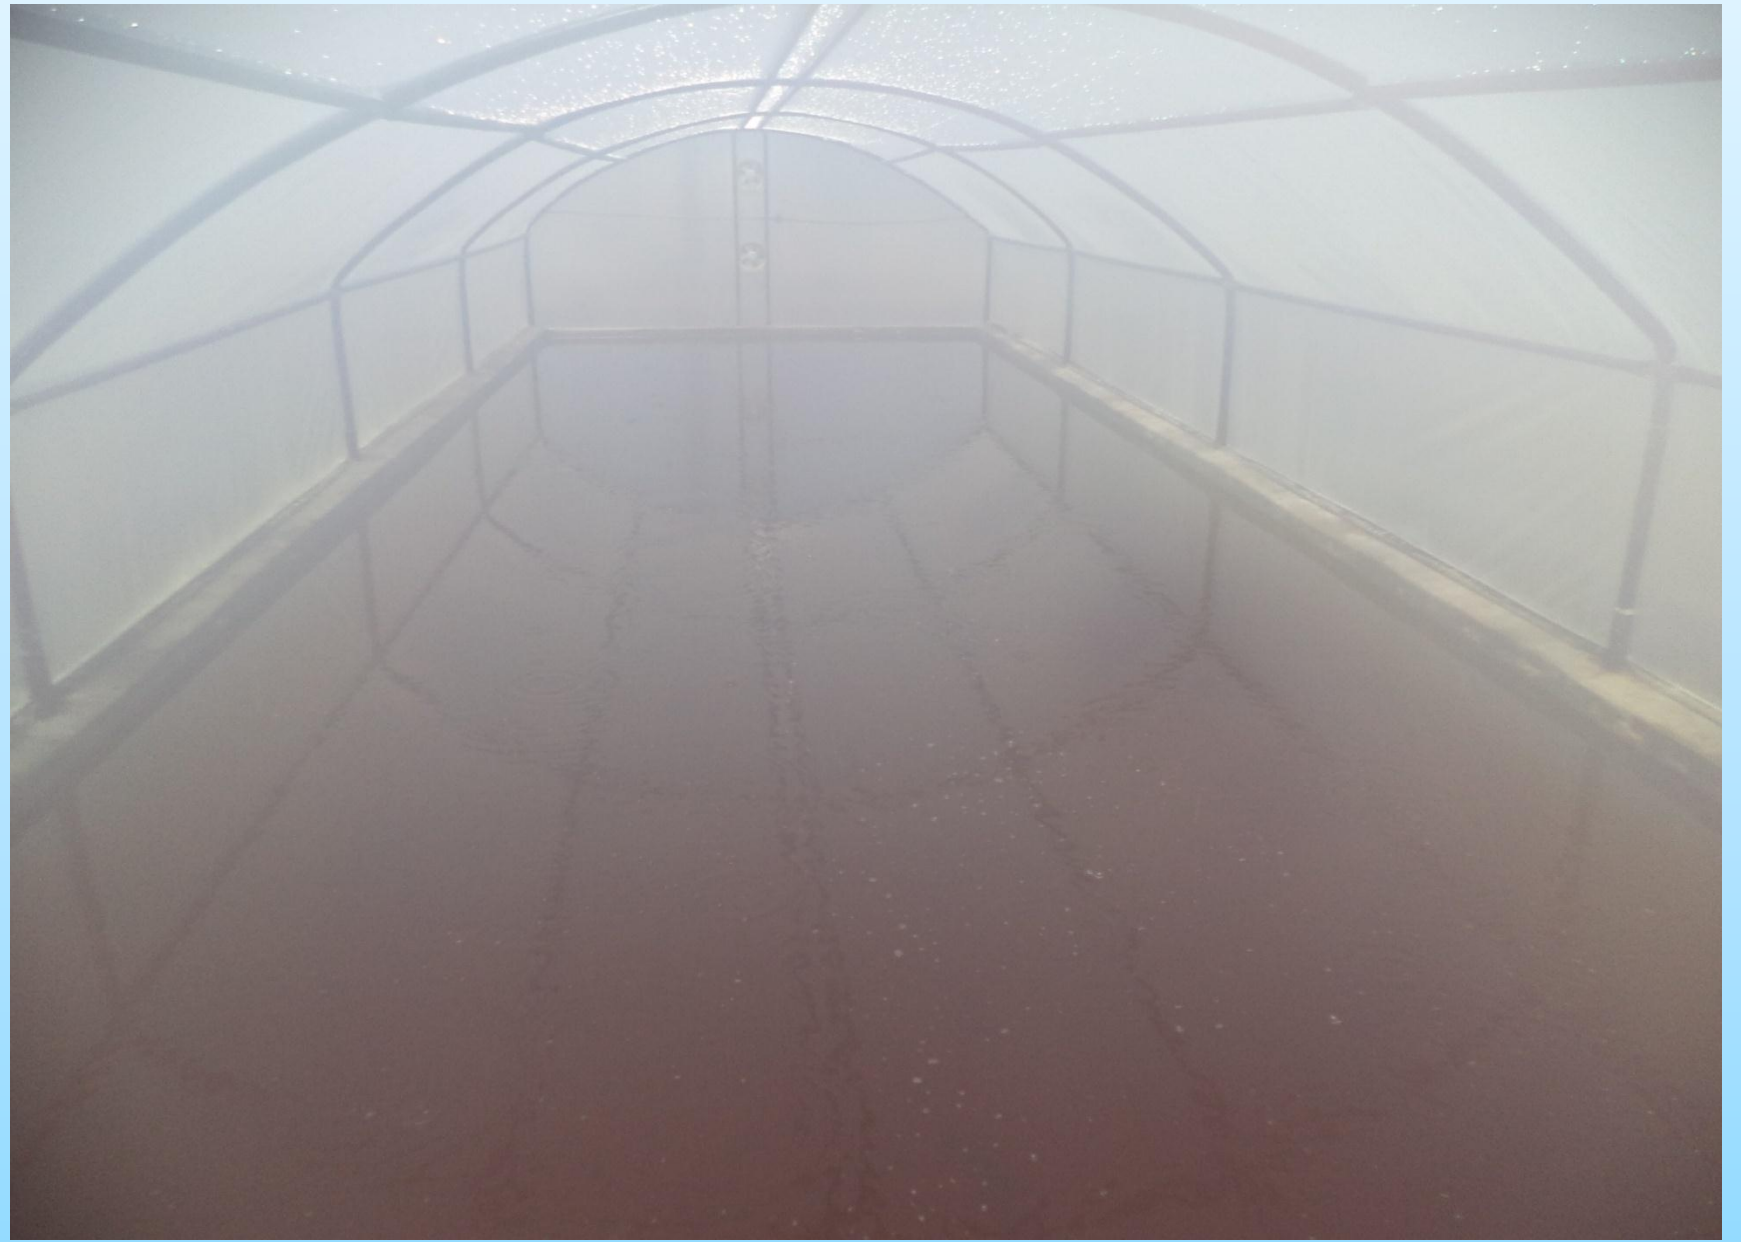

# Advantages in E.T.P Application

1. Natural Solar Energy is used for Evaporation – **Hence cost is saved.**
2. Evaporation is done in closed chamber – **Rain water protection.**
3. Effluent is evaporated in closed chamber – Bad odor spreading in air is Restricted – Hence air is free from pollution – **Environment is protected.**
4. Pure water recovery is possible – **Ground water is saved.**
5. Evaporators are made as to be **Kerosine free** – Hence long life is ensured.
6. Users friendly.
7. Easy to collect solid waste after evaporation – In Dried Form.

# Size of Solar Evaporator

- **12 mts Long X 4 mts Width**  
**effluent storage capacity**  
**2000 Lts to 2500 Lts.**

# Temperature

| <u>Ambiant</u> - | <u>Temperature inside the chamber</u> |
|------------------|---------------------------------------|
| 30° C -          | 60° C to 70° C                        |
| 27° C -          | 40° C                                 |
| 17° C -          | 27° C                                 |

# SERVICES

- **ONE YEAR warranty.**
- **AFTER SALES service on cost to cost Basis.**
- **LIFE LONG free technical consultancy services.**
